1 Starting a development cycle

```
gitGraph
  commit
  branch TEST order: 5
  branch DEV order: 10
  commit tag: "2.1.0"
  commit
  branch feature-001 order: 15
  commit
  checkout DEV
  branch feature-002 order: 15
  commit
```

Both features for *release 2.1.0* are developed in their own dedicated branches.

Feature-001 completes first and a PR is used to review and approve its merge into the *DEV* branch.
